## SPEAKING TOPICS

### EXTREME PRODUCTIVITY IN THE AGE OF OVER INDULGENCE IN SOCIAL MEDIA

This year alone there is expected to be over 2.77 billion people on social media-by 2021 more than 3 billion are expected to be on social media, that's over 40% of the entire world's population in that year. And we are definitely accessing the social sites at a rate of which leads to lags in our productivity by mindlessly scrolling our lives away. Mind-wandering and task-focused layered with cohesive steps to implementation and execution Shawn engages the audience through a sustained "class" within a talk on productivity. He gives an easy step-by-step process to get into flow and operate at your peak performance levels.

### OVERCOMING OBSTACLES

Shawn uses the story of his life to paint a vivid picture of what the effects of insular poverty can have when the basic needs of food, clothing and shelter are not met for a young boy at seven years of age well into early adolescence. He discusses the blueprint that you can duplicate to put your life on a trajectory to achieve your desired aims in life.

## PRAISE FOR SHAWN:

*"Shawn brought his epistemological and oncological knowledge base to our Paradise with a Purpose retreat in Puerto Plata, Dominican Republic. Our attendees came for business and as well as rejuvenation and were able to witness hands-on applications of business techniques steeped in the newest advances for the newbie and the practiced business owner.*
